What's Your Sign?

Since ancient times, man has followed the stars as his guiding light into the future. However, at a recent archaeological dig near ancient Rome, scientists unearthed a perfectly preserved 12 slice pizza on which (carefully spelled out in pepperoni) they found the true predecessor of modern day astrology. It seems that this tablet was either lost or stolen since no one could agree on what it exactly said, they used substitute signs: all the time hoping it would soon be recovered.

The rest is ancient history and for over 4,000 years, man has been without this guiding light and has not known his true sign! Now, for the first time it appears and is found only on the "Zappi's Calendar."

CHILI (JAN 21-FEB 19) Other signs tend to rule you, but when you get a chance, you strike back with great results, showing you're really hot stuff. Everyone likes you - well, almost.

ANCHOVY (FEB 20-MARCH 20) Like your counter part PISCES - you navigate life's waters easily and gracefully, but end up in the strangest places. Your salty disposition isn't everyone's cup of tea, but they don't know what they're missing.

TOMATO (MARCH 21-APRIL 20) You are found to be a natural leader - the foundation of everything good - you never lack attention and influence the tastes of others. Your favourite colour is red and you're sure to live a juicy life.

PEPPERONI (APRIL 21-MAY 21) Persons born under this sign are said to lead a spicy life. You work hard and do a good job but tend to lay around a lot. The stories you tell even though truthful, tend to make people think you're full of bull - caution - don't spread yourself too thin!

MOZZARELLA (MAY 22-JUNE 21) You're the "photographers" favourite because it doesn't take much to get you to smile. While you are a real party-goer, you are also astute in business and always stay on top of things.

GARLIC (JUNE 22-JULY 23) A strong willed individual, you lead a varied life. People love to have you - but when they do - can't get rid of you. You tend to be the life of the party but often end up crushed. To know you is to love you!

SALAMI (JULY 24-AUGUST 23) As a fun, loving sign, we find you with others of your own kind, as well as different friends - your slogan is "Nice Buns" and you love to jump into bed (lettuce of course) fully dressed! A navy natural!

RAVIOLI (AUGUST 24-SEPTEMBER 23) This individual tends to be somewhat of a stuffed shirt, yet loves to be with his own kind - and though you try again and again to kick bad habits, you usually are found in the sauce.

SPAGET'S (SEPTEMBER 24-OCTOBER 23) A member of a group, You tend to shape up your life in a different way and while you start out as a stiff and starch person, you end up quite flexible, capable of getting swallowed up in your work or slip/sliding away.

OREGANO (OCTOBER 24-NOVEMBER 22) A spicy life for sure, but you occasionally expect to be shelved for short periods of time. Caution - don't make yourself too obvious for no one likes too much of a good thing.

MEATBALL (NOVEMBER 23-DECEMBER 21) If you were born under this sign, you can expect to be always on top, "King of the Castle" so to speak - you may occasionally be side stepped, but people always tend to focus in on you sooner or later - you too can be found to end up in the sauce.

PIZZA (DECEMBER 22-JANUARY 20) The most enviable sign of all! Adored by everyone. It has been said the people drive from miles around just to dine with you. As for personality, it is whatever your fans want to make of it - you can be plain or fancy. A whimsical person that everyone must have a slice of.
